

Service Capabilities

We service what we sell. AEC is the only Kentucky-based HVAC equipment provider that offers complete HVAC service capabilities, and we take pride in our commitment to provide accurate dependable and responsive equipment and controls service. We strive to continuously develop and strengthen our partnership with our valued customers.

While we primarily focus on startup, service agreements and repairs of the manufacturers we represent, we can also service other HVAC manufacturers' equipment and a wide variety of HVAC controls, motor controls, as well as turnkey installations. Whether you are interested in protecting your investment or replacing your current equipment, we can quickly respond to your needs with service technicians and installers based throughout Kentucky.

Service Capabilities

- Expert factory-authorized start-up and commissioning
